
REPRESENTATION

staff — staff designation

DESCRIPTION

The **staff** tandem interpretation can be used to assign a given spine to a particular staff within a system.

Staff tandem interpretations consist of a single asterisk, followed by the keyword **staff**, followed by an integer identifying a staff, where **staff1** corresponds to the first staff at the top of the system. See EXAMPLES below.

SIGNIFIERS

The following table summarizes the mappings of signifiers and signifieds for **staff**.
